

REMARKS

Applicants have uncovered inadvertent errors, such as punctuation, typographical, grammatical, or like errors, in the specification. This preliminary amendment is submitted to replace the original specification (absent the claims) with a corrective substitute specification (absent the claims) submitted herewith. The substitute specification adds no new matter. Applicants have also amended claims 4 and 12 merely for clarification purposes. The amended claims are no narrower than original claims 4 and 12.

Consideration of this preliminary amendment in an examination of the application on the merits is respectfully requested.
